IDENTIFIERS	*Colorado

ABSTRACT

This report displays 1990 U.S. census data for Colorado and each of its 63 counties. Selected characteristics include population, English as a Second Language, educational attainment, labor force participation, poverty status, and public assistance income. Data, which may be useful in examining assumptions made concerning those characteristics, were selected by the Colorado Adult Literacy Commission. For each county, graphs display the respondents' perceptions of their competence in English as a Second Language and their educational attainment. Tables describe the adults in the labor force (persons over age 16), poverty status by age, and public assistance recipients by person and household. (SLD)

ADULT LITERACY CONCERNS

dult Literacy Concerns displays 1990 U.S. Census data for the state of Colorado and each of its sixty-three counties. Selected characteristics include: Population, English as a Second Language, Educational Attainment, Labor Force Participation, Poverty Status and Public Assistance Income.

The report was commissioned by the Colorado Adult Literacy Commission and prepared by the Office of Adult Education staff of the Colorado Department of Education.

This data may be useful in examining assumptions made concerning these selected characteristics. Census data is available for states, counties, cities and census tracts the data can be obtained from government agencies and public libraries. Other boundaries, such as school districts and state level representative districts, are much more complicated.

as found in 1990 Census of Population and Housing. Guide Part B. Glossary.

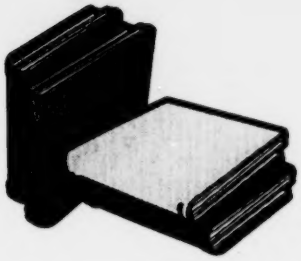
ENGLISH AS A SECOND LANGUAGE
LANGUAGE SPOKEN AT HOME AND ABILITY TO SPEAK ENGLISH

Ability to Speak English

Persons 5 years old and over who reported that they spoke a language other than English in question 15a were also asked in question 15c to indicate their ability to speak English based on one of the following categories: "Very well," "Well," "Not well,"or "Not at all."

15c How well does this person speak English?
Very Well Not Well
Well Not At All

The data on ability to speak English represent the Person's own perception about his or her own ability or, because census questionnaires are usually completed by one household member, the responses may represent the perception of another household member. The instruction guides and questionnaires that were mailed to households did not include any information on how to interpret the response categories in question 15c. (p.42).



EDUCATIONAL ATTAINMENT

Educational Attainment

Data on education attainment were derived from answers to questionnaire item 12. Persons are classified according to the highest level of school completed or the highest degree received. The question included response categories which allowed persons to report completing the 12th grade without receiving a high school diploma, and which instructed respondents to report as "high school graduate(s) - persons who received either a high school diploma or the equivalent, for example, passed the Rest of General Educational Development (G.E.D.), and did not attend college. (p./21.)

LABOR FORCE

Employed

All civilians 16 years old and over who were either (1) "at work" those who did any work at all during the reference week as paid employees, worked in their own business or profession, worked on their own farm, or worked 15 hours or more as unpaid workers on a family farm or in a family business; or (2) were "with a job but not at work" those who did not work during the reference week but had jobs or businesses from which they were temporarily absent due to illness, bad weather, industrial dispute, vacation, or other personal reasons. (p.22.)

Unemployed

All civilians 16 years old and over are classified as unemployed if they (1) were neither "at work" not "with a job but not at work" during the reference week, and (2) were looking for work during the last 4 weeks, and (3) were available to accept a job. Also included as unemployed are civilians who did not work at all during the reference week and were waiting to be called back to a job from which they had been laid off. (p.22)

Civilian Labor Force

Consists of persons classified as employed or unemployed in accordance with the criteria described above. (p.23.)

POVERTY STATUS

Poverty Status

The data on poverty status were derived from answers to the same questions as the income data, questionnaire items 32 and 33. Poverty statistics presented in census publications were based on a definition originated by the Social Security Administration . . .

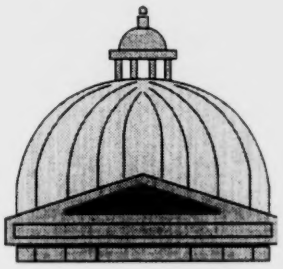
The income cutoffs used by the Census Bureau to determine the poverty status of families and unrelated individuals included a set of 48 thresholds arranged in a two-dimensional matrix consisting of family size (from one person to nine or more persons) cross-classified by presence and number of family members under 18 years old (from no children present to eight or more children present).

The poverty thresholds are revised annually to allow for changed in the cost of living as reflected in the Consumer Price Index. the average poverty threshold for a family of four persons was $12,674 in 1989. (p.44).

PUBLIC ASSISTANCE

Public Assistance Income

Includes: (1) supplemental security income payment made by Federal or State welfare agencies to low income persons who are aged (65 years old or over), blind, or disabled; (2) aid to families with dependent children, and (3) general assistance. Separate payment received for hospital or other medical care (vendor payments) are excluded from this item. (p.33).



HOUSEHOLD

Household

A household includes all the persons who occupy a housing unit. A housing unit is a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied (or if vacant, is intended for occupancy) as separate living quarters. Separate living quarters are those in which the occupants live and eat separately from any other person in the building and which have direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated persons who share living arrangements. (p.30).

AVERAGE PUBLIC ASSISTANCE INCOME PER PERSON

Definition for the purpose of this report.

This figure divides the "Total Public Assistance Income" by the number of Persons with "Public Assistance Income."
